

CAPABILITY STATEMENT

CRITICAL
LOGISTICS
AUSTRALIA

"WE WON'T LET YOU DOWN"

PROFILE

Critical Logistics can satisfy all of your transport needs under one roof. From parcels to heavy mining equipment, we transport Australia wide with the best service in the business!

If it's critical that it gets there, you can rely on us as a one stop shop whether it be by land, sea or air. With our fleet and network of vehicles from small vans, 4x4 "all access" light pantechs, curtainsiders, refrigerated trailers/containers, flat tops and low loaders can get whatever you have to wherever you need it. All freight and goods whether parcels, pallets, shipping containers, heavy earthmoving and mining equipment are what we do.

If you are outside the metropolitan areas or sending goods to remote challenging areas such as indigenous communities, military sites, outback farms or mine sites, we have you covered.

If it is perishable, medical equipment, military goods, government supplies, fresh produce or you just need it there in a hurry, we have you covered.

Professional, reliable and efficient services for any of your transport requirements.

OUR STRENGTHS

Working areas outside what would be considered normal highway transport has ensured we provide a strong, focussed offering, catering for transport logistics in regional Australia.

Our organisation is focused on providing efficiencies combined with a highly tuned level of service. We pride ourselves on the assembled workforce we have whose flexibility ensures our capabilities suit clients demands.

Communication is seen as the most important ingredient in our successful management of operations. This has been an important factor in us maintaining strong, long lasting relationships.

Client relationships and the fostering of a team environment mean that we work alongside our clients to achieve results that we can all be proud of.

Our group of companies have a proven record of delivering on many large multi-billion-dollar state and federal funded projects in mining, infrastructure and resources for over 20 years. These include Tier 1 clients with stringent Safety, Quality, Environmental and Training policies.

Our biggest strength is we make it happen, you give us the challenge and we will deliver on time. We are fast and nimble and not interested in the kinds of delays that can plague our competitors.

Our reputation is everything to us

"Critical Services has demonstrated the capacity and ability to provide large specialised transport packages with expert teams within critical response times. Laurence and his team are always available with their professional can do attitude"

Glen Mortimer- Project Manager Queensland Rail

WORKPLACE HEALTH & SAFETY

Our ultimate goal is to achieve injury and incident free work sites. Our integrated Health, Safety and Quality Management Systems, ensure a company-wide focus on best practice in our field. Additionally, our equipment is well maintained for the safety of all team members, both ours and yours, and to ensure that your projects remain on track without interruption.

Ensuring the safety and wellbeing of our people, as we maintain our goal of zero harm is a procedure we take very seriously at Critical Logistics.
